

SAINT JOHN OF NEPOMUK AWARD

FOUNDING CHARTER

International Project
Stories That Change the World Through Faith,
and the Saint John of Nepomuk Award

Solemn Declaration of the Founder

The idea for this international platform was born of the conviction that the true strength of society lies not only in its economic or technological development, but above all in people whose actions bring goodness, hope, solidarity, courage and faith in a better world.

Golden Blot CZ, Endowment Fund, represented by its founder Jiří Opl, hereby declares the establishment of the international platform Stories That Change the World Through Faith, and, as part of it — the Saint John of Nepomuk Award.

At the same time, it opens the possibility for institutions and organisations that share its mission, values and long-term vision to become founding partners of this initiative.

Every day, stories emerge that deserve to be told. Stories of people helping others, overcoming their own obstacles, protecting human dignity and inspiring those around them. These stories are the quiet wealth of society and deserve to be preserved and shared.

We therefore establish the international platform Stories That Change the World Through Faith as a long-term initiative supporting the search for, documentation, recognition and dissemination of real human stories of goodness.

The Saint John of Nepomuk Award also becomes part of this platform, presented to individuals, organisations and institutions whose lives or activities make an outstanding contribution to humanity, solidarity, truth, courage and hope.

Mission of the Platform

The platform is established with the aim of:

- supporting a culture of mutual respect and solidarity
- seeking out and sharing inspiring human stories
- honouring individuals and organisations who bring good to society
- connecting the public, non-profit, church, academic and business sectors
- supporting international cooperation founded on shared human values
- inspiring the younger generation through positive role models

Core Values

The platform is built on the following principles:

- respect for the dignity of every person
- truthfulness and trustworthiness
- openness and cooperation
- responsibility for the common good
- solidarity and mutual assistance

- professionalism and transparency
- respect for the diversity of opinions, cultures and spiritual traditions

Character of the Platform

The platform is an open international initiative that welcomes cooperation with all people of good will, public institutions, churches, schools, universities, media, non-profit organisations, foundations, businesses and other partners who share its mission.

Its aim is not to replace the work of existing organisations, but to create a space for their mutual connection and the shared spreading of goodness.

Final Provision

This Founding Charter expresses the founder's will to create a long-term platform that will be developed for the benefit of society and future generations.

Its mission will be fulfilled in a spirit of respect, cooperation, humanity and responsibility.

The platform will pursue its goals through its own projects, strategic partnerships and international cooperation.

Founder's Declaration

Mindful of my responsibility toward present and future generations, I hereby adopt this Founding Charter as the foundational document of the international platform Stories That Change the World Through Faith and the Saint John of Nepomuk Award.

It is my wish that this initiative contribute to the spread of goodness, the strengthening of human dignity, and the building of a society founded on trust, solidarity and hope.
