Stories That Change the World Through Faith, and the Saint John of Nepomuk Award

Preamble

We live in a time when the world is flooded with conflict, fear, social division, and a loss of trust between people.

And yet, all around us, every day, stories emerge of people who help others, who forgive, who give their time, who save lives, who care for the sick, who protect the vulnerable — people who prove that goodness still exists.

But these stories often remain hidden.

Our mission is to seek them out, record them, honour them, and pass them on.

We believe that a single true story can change more human hearts than a thousand words.

This is why the international platform Stories That Change the World Through Faith was created.

It is not merely a project. It is a long-term social movement built on respect for the human person, dignity, solidarity, humility and hope.

Our Mission

To seek out the stories of ordinary and extraordinary people whose actions prove that goodness matters.

To connect nations through values shared by all cultures.

To remind the world that faith is not only a matter of religion, but above all the courage to do good.

To show that humanity is a universal language.

Our Values

Our Vision

To build the largest European database of real human stories of goodness.

To honour, every year, individuals whose lives inspire others.

To connect media, schools, churches, non-profit organisations, businesses and the public.

To build a culture of mutual respect.

To create positive social change.

Our Conviction

Every person can change the world.

Every good deed matters.

Every story can save another human life.
